BREACH OF FAITH.

Minister Willis Accused of Playing False to President Dole.
San Francisco, Jan. 15.—There is a prospect that the United States of-ficials, either in Honolulu or in America, may have to answer to the charge of breaking faith with President Dole. It is aid Minister Willis grew impat'ent at Dole's delay in formulating his reply to Willis' demand for abdication and urged greater haste, whereupon President Dole called upon Willis and frankly admitted he did not propose to submit his reply until the arrival of a vessel on which it could be dispatched multaneously with the departure of the Corwin, whereupon Willis agreed the Corwin should carry the dispatches

of the provisional government.

Dole then hurried forward his reply nd sent it to Willis, who dispatched the Corwin early next morning. It transpires that no dispatches were de-

My before the control of the United States desiration of the present of the United States desiration, we do the United States desiration of the present of the United States desiration of the United States desiration of the present of the United States desiration of the present of the United States desiration of the B. Soward, Hamilton Fish and James G. Hisites, all former secretaries of state, and especially so by the settion of your last administration in degotiating a treaty of annexation with this givernment and sending it to the senate with a view of its ratification. We shall, therefore, continue the project of political union with the tracking policy, confidently boging that so or later it will be erowned with success to be lasting benefit of both countries.

The additional portion of your communication referred to our domestic affairs with a view of interfering therein is a new departure in the relations of the two governments. Your information that the presistent of the United States expects this government to "promp.ly relinquish authorite" with the question: "Are you willing to abide by the decision of the president!" might well be dismissed in a single word, but for the circumstances that your communication of a takes, as it appears to me, mis-

much not for the directions that your com-muchation c stains, as it appears to me, mis-statements and erroneous conclusion based thereon that are so propulicial to this govern-ment that I cannot permit them was un-challenged. Moreover, the importance and menacing character of this propulation make it appropriate for me to discuss somewhat fully the question raised by it. The Geography of Crime The most notorious crooks at the present writing are produced by the Balkan states, and the police of all civilized countries, especially Germany and Austria, watch with terror the inappropriate for me to discuss somewhat fully the question raised by it.

We do not recognize the right of the president of the United States to interfere in our domestic affairs. Such right could be conferred upon him by the act of this government and by that along, or it could be acquired by conquest. This, I inderstand to be the American doctrine complements and announced from time to time by the authorities of your government. President Juckson said in his in issage to congress in 1835: "The uniform policy and practice of the flux of thieves, burglars and crooks of all kinds that are wending their way westward from Servis, Bulgaria and Bohemia. Bucharest is known to-day as the greatest den of swindlers in the world. Even the great American crime centers cannot hold a candle to Bucharest. J. is the exit, so to speak, the sent Juckson said in his in saage to congress in 18.5: "The uniform policy and practice of the Draied States is to avoid all interference in disputes which mostly relate to the internal government of other nations and eventually to recognize the authority of the prevailing party without reference to the merits of the original controversy."

This principle of international law has been consistently recognized during the whole near initiative station for the crooks of the Balkan states from where they travel westward to Vienna, Berlin, Paris, London, Rome and New York. The international criminal profession is recruited through a large contingent of the uncivilized element of the Balkan Secretary oresham to Commissioner Bount on March II, 1991, and by the latter published in the newspapers in Honolulu in a letter of his own to the Hawallan gublic. The works of these lastractions, which I refer to, are as fol-lows: 'The United States claim no right to In-teriors in the relitive terms of the contractions. most entirely carried on by Roumanians, Servians, Bulgarians, Russians and Galicians. They outrank in eleverness the once world-famous English and American professionals in that line.—Boston Transcript.

	terfore in the political or domestic affairs or in the internal conflicts of the Hawalian Islands other than as herein stated (reforring to the protection of American citizens) or for the purpose of maintaining any trenty or other rights which they possess." The treaties between the two countries confer no right of interference. Upon what, then, Mr. Minister, does the president of the United States base his right of interference? Your communication is without information upon this point, excepting such as may be contained in the following brief and vague settences: "She the siqueon; was advised and assured by her ministers and leaders of the movement for the overthrow of her government that if she surrendered under protest, her came would afterwards be fairiy considered by the president of the United sidered by the president of the United sidered by the president of the United	line.—Boston Transcript. —Beethoven was frequently obligate to change his lodgings on account his queer habits. As a matter of fact, no member of the executive of the provisional government has conferred with the ex-queen either verbally or otherwise from the time the new government was proclaimed till now, with the exception of one or two notices which were sent to her in myself in regard to her removal from the paines, and relating to the guards which the government first llowed her and perhaps others of a like nature.

I infer that a conversations which Mr. Damon.
I member of the advisor's council, is reported by Mr. Biount to have had with the ex-queen en January 17, and which his been quoted in the newspapers, is the basis of this actounding of the president of the United States of his authority to adjudict to upon our right as a government to exist. What Mr. Damon said to the ex-queen he said on his individual authority and did not report it to us.

-THEE Missouri, Kansas & Texas RAILWAY

Is the direct line through Central Missouri, Southeastern Kansas and the Judian Territory to Texas, thence on to deep water on the Mexican Guif.

Was the first railroad ever built into the Indian Territory and was the first to cross the border into Texas and peah on through the thriving towns of the state to sait water. The KATY is always the first to get out of the old ruis and improve its facilities for handling passengers and freight. As the early actities moved from old log cabins to the more coincitable moderoized nonese, so has the KATY edvanced and moved her passengers out of Poliman into

Another advance is the introduction of the AMERICAN EXPRESS COMPANY to do the express bosiness of this company. The above express company covers lines from the Atlantic to the Guif, and note stands higher than it.
